## Emdeon Vision for Claim Management

Easily track claims online from submission through payment

Are lost claims hurting your profitability? Or, just wasting time that could be used to do something more important? With Emdeon Vision for Claim Management, you get complete visibility into the claim lifecycle. You can quickly and easily see if the payer received your claims, if the payer accepted them or if there are errors that need to be corrected. This added level of insight and control helps reduce delays to maximize the speed and efficiency of your cash flow.

## Benefits to You

- Keep better track of your cash flow with views of detailed claim information including procedure codes, authorization codes, patient information, provider information and more
- Save time by searching claims by patient, payer, batch, status and more
- Spend less of your day on administrative tasks with instant access to 15 months of historical data
- Accelerate your payment cycle by viewing, printing or exporting claim and payment reports
- Easily identify problems, opportunities and trends with dashboard views
- Reduce delays in getting paid by receiving alerts for unworked rejections
- Stay in touch anywhere by viewing practice data on your smart phone with Emdeon Vision Mobile

*“Emdeon Vision gives me a snapshot of the health of the practice. It’s almost like checking the vital signs of my practice. At any given time I know exactly what is billed out, by week, by day and by six months. It’s an instant evaluation of how we are doing as a practice.”*
